

Parking at Damerham Site.

For anyone new to the school run and in light of our lovely new, albeit slightly large, school bus here are a few pointers on what to watch out for. It's based on comments from parents who use the car park daily.

1. If you can, please park at the Village Hall and enjoy the walk with your child.
2. Unofficial One Way System – please enter from Steels Lane and Exit via Church Lane.
3. No parking on Steels Lane to allow the bus turning space.
4. Give way – we are all trying to drop off/collect our children and we are all busy. Manoeuvring can be tricky in limited space with children and other traffic, so please be patient and apply some common sense and be courteous to the other road users; they too have somewhere to be and every right to use the road. No one likes or needs a stand off!
5. Free range children – be aware children, including yours, are at risk! Especially as the traffic is multi directional and cannot always be heard now we have electric vehicles.
6. Drive ways and village properties - avoid blocking, be mindful, how you would feel if someone blocked or parked on your property?
7. Please allow a sufficient passing space of at least 2 cars periodically so the traffic can pass safely.
8. Car Share!

We hope this is received in the manner it is intended – in the spirit of keeping our children safe and stress levels to a minimum. Rest assured we are helping Miss Wilcox and are in contact with the Council in an attempt to ease the situation.

The Friends.
